Professional Experience

07/2023 – present
Bellevue,
United States

Contract Jr. Software Engineer, *Launch Consulting Group*

- Contributed to Azure resource development and diverse front/back-end code with Node.js and C# API, efficiently managing these resources through the portal to ensure optimal allocation and peak cloud service performance.
- Implemented a robust Selenium testing framework and contributed to the development of Power Automate flows
- Led the user-friendly front-end UI development aligning with project goals, while guiding Agile/SCRUM methodologies
- Engaged in the Hi-Impact Mentoring program, actively learning and applying various tools, demonstrating dedication to continuous professional growth.

01/2021 – 06/2023
Monmouth,
United States

Software Developer, *Western Oregon University*

- Lead developer on the Development team for Turtle App, an app and website developed for the Oregon Department of Fish and Wildlife
- Developed and maintained the application using C#, ASP.NET Core, Xamarin, and MAUI
- Contributed to the creation of an innovative platform allowing users to observe and record turtle sightings in Oregon, facilitating the identification and relocation of invasive species

Projects

01/2023 – 06/2023

Music Collaboration Manager, *Senior Capstone Project*

- Collaborated as part of a 4-member development team to create the Music Collaboration Manager, a senior capstone project.
- Assumed the role of GIT manager, overseeing the team's workflow, pull requests, and source code management.
- Employed a diverse tech stack including ASP.NET 7, JavaScript, Ajax, Tailwind CSS, web APIs, and AI technologies to deliver a cohesive and responsive website.
- Developed and integrated unique features to enhance the user experience and facilitate efficient music collaboration.
